

UCSF Fresno

Hildebrand Medical Library

Medical Library Professionals are available to provide consultations and trainings on a variety of topics to support evidence-based medical literature searching. These sessions are offered on a one-on-one basis or scheduled for a group of learners as part of a didactic session either in person or via zoom.

1. Review of available medical literature databases and research resources.
2. PubMed basic searching.
3. PubMed advanced searching.
4. The Systematic Review: what is it and when is one needed?

Walk-ins are welcome or contact a librarian at Fresno.library@ucsf.edu to schedule an educational session.
